# LIVING ORGANIC FERTILISER 活性有机肥

Towards Sustainable Agriculture  
- Better Soil, Better Crops.

迈向持久性农业，由改良土质开始。

A Sarawakian Product

# GREEN-PLUS

N:P:K 5:5:5 + TE

**Suitable for all crops.**  
(green vegetables / immature fruit trees)

A green alternative to 15:15:15 compound fertilizers.

Built on top of the **PURE ORGANIC**, inorganic nutrients are added to enhance its potency, ensuring crops receiving a balanced nutrition throughout the life-cycle.

With the goodness in the **PURE ORGANIC** maintained, nutrients are made readily available, enhancing nutrient-uptake and plant growth.

# PURE ORGANIC

**Top or basal application, the perfect soil conditioner.**

Commonly used for land preparation, basal planting, soil rehabilitation / conditioning.

Consists of beneficial micro-organisms, organic matter and wide range of trace elements that help improve soil and plant's health.

Manufactured with state-of-the-art aerobic composting technology, matured, non-pathogenic and alkaline.

# K-PLUS

N:P:K 5:4:10 + TE

**Suitable for all fruit trees and squash.**

A green alternative to 12:12:17 compound fertilizers.

Improved nutrient content with inorganic fertilizers, giving planters a product that improves fruit yield and soil health all at once.

Maintaining the goodness of the **PURE ORGANIC**, this blend enhances fruit quality (sweetness) and yield.

**Pathogen Free**  
无病菌

**More than 50% Organic Matter**  
超过50%有机质

**Rich with Trace Elements**  
丰富的微量元素

**High Population of Beneficial Microbes**  
高数量益菌

**Alkaline**  
碱性
